

From The Makers of The  
We Bring You THE

Advanced Driploc Replacement Filters

Specially designed to work with Driploc Grease Containment Systems, The Grease Pillow Advanced Driploc Replacement Filters (as well as all our absorbent replacement products) are manufactured using 100% recycled Hydrophobic materials and bio-degradable grease neutralizers. This means that they ONLY absorb exhaust fan grease discharge not precipitation, making them extremely effective, as well as **environmentally friendly**.

- Does not retain water, only retains Grease (F.O.G.)
- Retains 8x its weight in grease.
- Low Cost Programs Available
- High Margins
- Omni backs the Original Driploc Warranty\*
- You get a company that does not compete against you, we are only a Manufacturer.
