We Bring You THE

# GREASE PILLOW

Advanced Universal Replacement Filters

Specially designed to work with Driploc Grease Containment Systems®. The Grease Pillow Advanced Universal Replacement Filters (as well as all our absorbent replacement products) are manufactured using 100% recycled Hydrophobic materials and bio-degradable grease neutralizers. This means that they ONLY absorb exhaust fan grease discharge, not precipitation, making them extremely effective, as well as **environmentally friendly**.

- Does not retain water, only retains Grease (F.O.G.)
- Retains 8x its weight in grease.
- Low Cost Programs Available
- High Margins
- Omni backs the Original Driploc® Warranty
- You get a company that does not compete against you, we are only a Manufacturer.
